Short introduction of DFG project

Holger Angenent

Field reports: current state
(Interviews with researchers)

Relevance

Your benefits...

User

- ✓ Excellent User Experience
- ✓ Continuous work processes

are our goals!

Sciebo RDS

*Connect existing
research data
services where
the scientists are!*

Admins

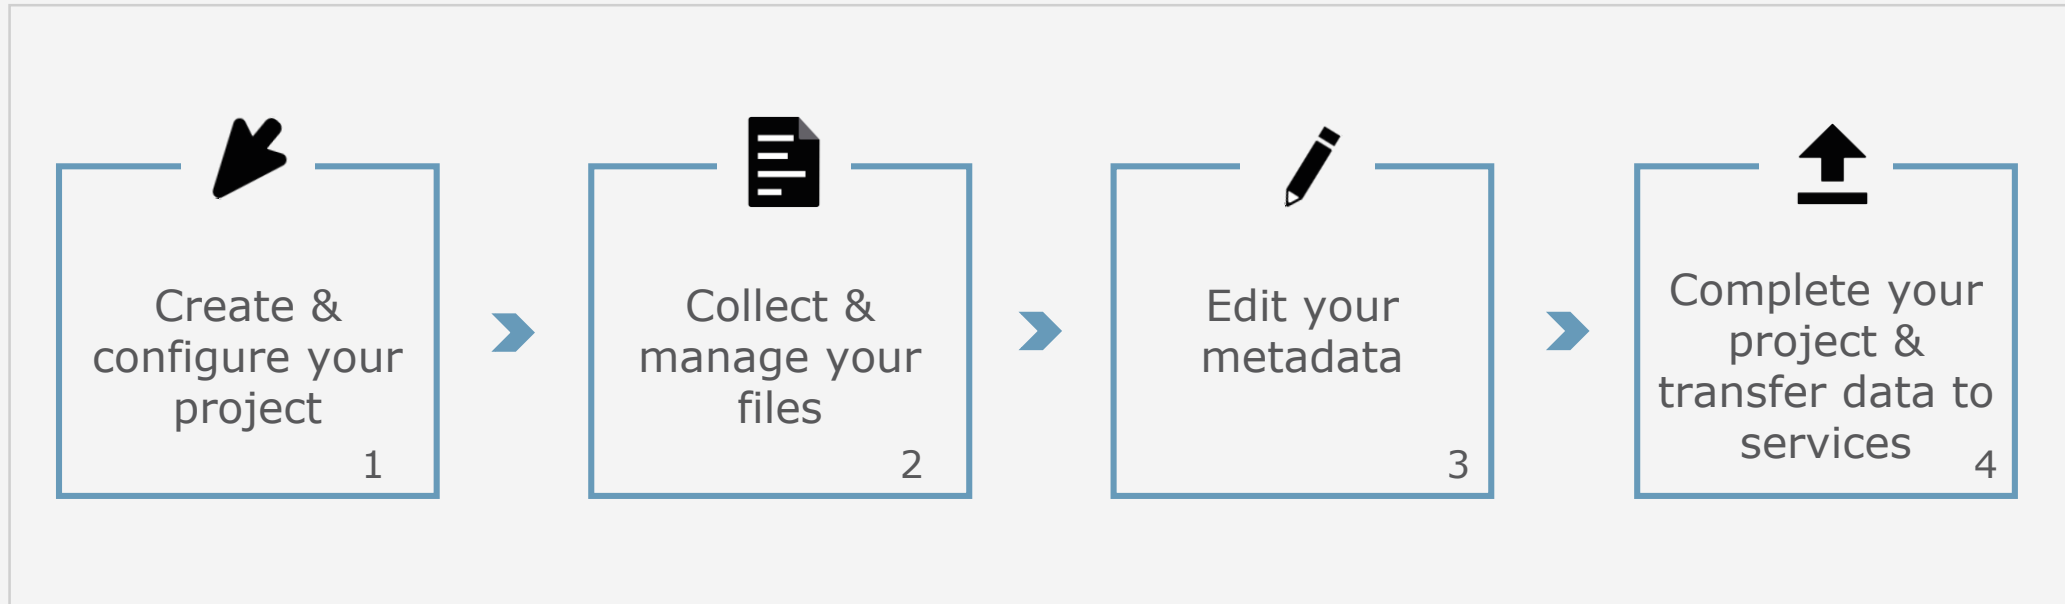

- ✓ Easy configuration
- ✓ Immediate overview

Developer

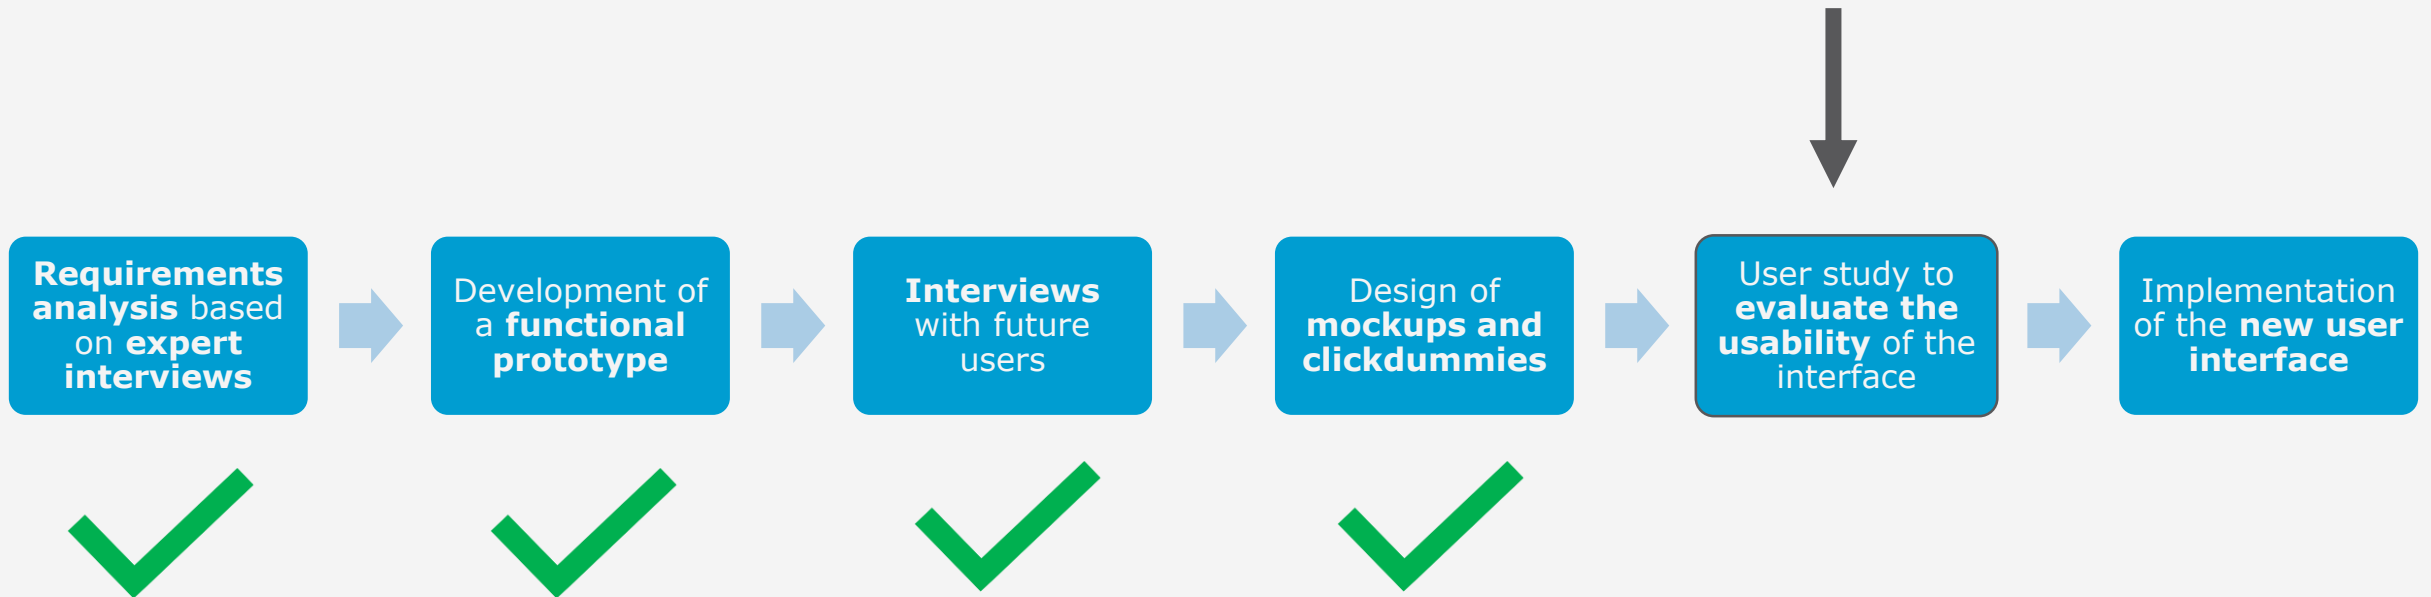

- ✓ Modular architecture
- ✓ CI/CD
- ✓ Documentation

Digital Nudging

A process model for the design of digital nudges (Meske & Potthof 2017)

Nudging is an active shaping of a decision situation with the goal of systematically and predictably influencing people's behavior for their own good.

[Thaler and Sunstein 2008]
