

Challenges

Main Challenge

- EUDAT's vision:

Data is shared and preserved **across borders and disciplines**

- Technical interoperability
- Access to resources, data and services
- Policies across domains and disciplines

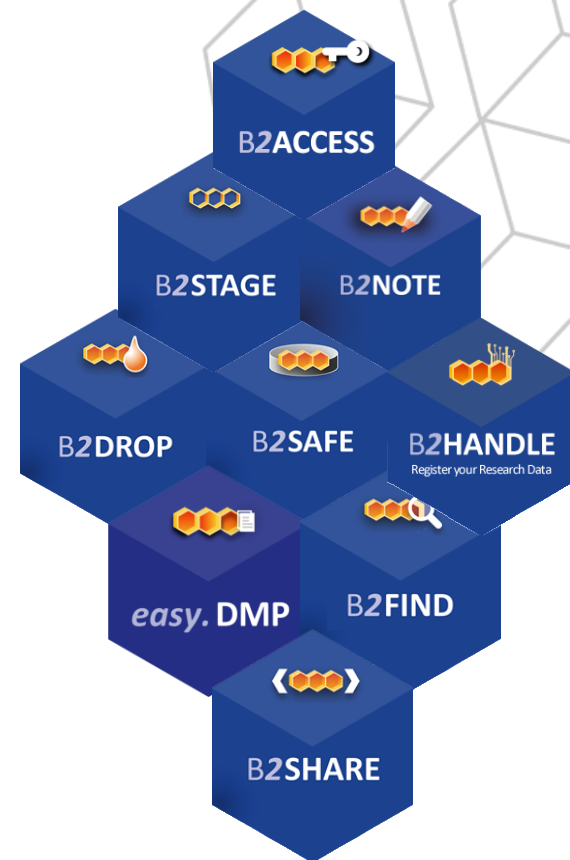

Potential Synergies

- B2DROP is EUDAT sync and share service
- ScienceMesh is more as just a sync and share service
- Develop common approaches on interoperability
 - Connecting to computing and analysis
 - Publishing workflows
 - Federated AAI
 - ...
- Make services and resources available across infrastructures

- Collaborate on common use cases from communities

**EUROPEAN OPEN
SCIENCE CLOUD**
