WHAT IS CS³MESH⁴EOSC?

CS³MESH⁴EOSC is an EU-funded project that addresses the challenges of data and service fragmentation in the everyday practice of researchers through the development of the Science Mesh. The Science Mesh is the Federated Science Cloud Mesh that connects a rich ecosystem of existing and heterogeneous research services where data, applications, and computation are brought together for frictionless scientific collaboration.

WHO CAN BENEFIT FROM THE SCIENCE MESH?

Each user can start from the node they already use... and access data hosted on different nodes... thanks to the Science Mesh Data Services.

Researchers

Service Providers

Software Developers

Become a user!

Add your local Sync and Share system as a node!

See how to add your software tool within the services categories.

Unlocking scientific collaboration through technology in Europe

Watch our video to discover how the Science Mesh enables researchers, educators, data curators and analysts to retain control over their remote or domestic datasets, while becoming FAIR compatible and integrated with the European Open Science Cloud (EOSC).

CONSORTIUM

CS3MESH4EOSC - Interactive and agile/responsive sharing mesh of storage, data and applications for EOSC, has received funding from the European Union’s Horizon 2020 research and innovation programme under Grant Agreement no. 863353.
